# GENERAL INDEX, VOLUME 102, NO. 1, 2, AND 3 (1958)

Adler, H. E., See Yamamoto.

Bacon, Marion. Bacterial infections in wild rodents of eastern and central Washington, 5
Comparative susceptibility of various species of mice native to Washington to inoculation with virulent strains of *Pasteurella pestis*, 14
Bacon, Roma F., See Bacon, Marion.
Bacteria, airborne, recovery of from oral cavity of humans, 251
Bacterial infections in wild rodents of eastern and central Washington, 5
Benham, Ross S. Some cultural properties of *Endamoeba histolytica*, 121
Bobclik, G., See Stubbs.
Borg-Petersen, C., See Fennestad.
Brucellosis, host-parasite relationships in. Infection of normal guinea pig macrophages, 258
Burrows, William. Studies on immunity to Asiatic cholera. X. Heat stable cell wall and intracellular antigens of *Vibrio cholerae* independent of agglutinogens and demonstrable by passive hemagglutination, 94

*Candida albicans* injected intraperitoneally into mice, process of invasion and persistence of, 114
Chloramphenicol, effect of passage on penicillin-resistant feline pneumonitis virus during subsequent passage with penicillin, 186
Cholera, Asiatic, studies on immunity to (X), 94
Colón, Julio L., see Moulder.
Contributors, note to, 1
Cortisone, effect of treatment with on *Trichinella spiralis* in rat, 158
*Corynebacterium diphtheriae*, modified Tinsdale's medium for primary isolation of, 88
Crawford, York E., Isolation and reversion of L forms of beta hemolytic streptococci, 44
*Cryptococcus neoformans*, active immunization against, 219

Dalmat, Herbert T. Effects of x rays and chemical carcinogens on infectivity of domestic rabbit fibromas for arthropods, 153
Immunity of rabbits to Shope's fibroma virus, 179
*Dictyocaulus viviparus*, eosinophilic response to in cattle, 214
Drake, Charles H., see Bacon

*Endamoeba histolytica*, some cultural properties of, 121
Eosinophilic response to infection with *Dictyocaulus viviparus*, 214
Ercoli, N., see Stubbs
Erlandson, Arvid L., Jr., Experimental *Shigella flexneri* infections in chick embryos, 237

Fennestad, K. L., Fetal leptospirosis and abortion in cattle, 227
Feline pneumonitis virus, development of resistance to a quinoxaline N-oxide in, 294
Effect of passage with chloramphenicol on behavior of penicillin-resistant strain during subsequent passage with penicillin, 186
Floyd, Thomas M., see Erlandson

## TABLE OF CONTENTS

### No. 1, July-August, 1958

PAGE

I. A. Parfentjev. Yeast antibiotic with therapeutic and prophylactic properties 1

D. Paretsky, C. M. Downs, R. A. Consigli, and B. K. Joyce. Studies on the physiology of rickettsiae. I. Some enzyme systems of *Coxiella burnetii*.... 6

C. A. Ostrom. Studies of the oral flora in experimental airborne infection: *Klebsiella pneumoniae* as an indicator organism..... 12

B. S. Tepper and J. B. Wilson. A comparison of the amino acid composition and nucleic acid content of strains of *Brucella abortus*..... 19

Jesús Kumate, Lázaro Benavides V., Julio Carillo, Manuel Santos, and Luis Rangel. Pathological physiology of salmonellosis. V. Serum arginase and glutamic-oxaloacetic transaminase in children with typhoid fever.... 25

Stephen E. Mergenhagen, John C. Thonard, and Henry W. Scherp. Studies on synergistic infections. I. Experimental infections with anaerobic streptococci..... 33

George J. Scheff, Carl J. Marienfeld, and Eloise Hackett. Blood culture studies in rheumatic fever patients..... 45

Florence B. Seibert. The interplay of an immune substance with tuberculo-polysaccharide and its antibody in tuberculosis..... 52

Sheldon G. Cohen, Daniel S. Dzury, and Francis J. Michelini. Immune responses to *Staphylococcus aureus* antigens..... 61

Sanders T. Lyles and Earl W. Gardner. Studies in the antigenic structure of *Vibrio cholerae*. I. The effects of heat on the agglutinating antigens..... 67

J. Thomas Grayston, Clayton G. Loosli, Mabel Smith, Mary A. McCarthy, and Paul B. Johnston. Adenoviruses. I. The effect of total incubation time in HeLa cell cultures on the isolation rate..... 75

J. Thomas Grayston, Mary A. McCarthy, Mabel Smith, and Clayton G. Loosli. Adenoviruses. II. The sensitivity of different tissue culture strains of cells to adenoviruses..... 86

J. Thomas Grayston, Joyce C. Lashof, Clayton G. Loosli, and Paul B. Johnston. Adenoviruses. III. Their etiological role in acute respiratory diseases in civilian adults..... 93

Edgar G. Pickens and Lauri Luoto. Tissue culture studies with Colorado tick fever virus. I. Isolation and propagation of virus in KB cultures .... 102

### No. 2, September–October, 1958

Julio I. Colón and James W. Moulder. Folic acid in purified preparations of members of the psittacosis group of micro-organisms..... 109

Sturgis McKeever, Joseph H. Schubert, Max D. Moody, George W. Gorman, and John F. Chapman. Natural occurrence of tularemia in marsupials, carnivores, lagomorphs, and large rodents in southwestern Georgia and northwestern Florida..... 120

Leonard N. Binn and Maurice R. Hilleman. Detection of poliovirus I in monkey kidney cultures inoculated with overwhelming dose of adenovirus 4 127

Robert B. Stewart. The effect of cortisone on the lethality of psittacosis virus for the chick embryo..... 129

Berkley H. Johnson and William Furrer. Hyaluronic acid: a required component of beta hemolytic streptococci for infecting mice by aerosol..... 135

PAGE

E. G. Schmidt and Patricia Thorp. The effect of chemotherapeutic agents upon the growth of *Cryptococcus neoformans* ..... 142

Sol Miller and Richard Ehrlich. Susceptibility to respiratory infections of animals exposed to ozone. I. Susceptibility to *Klebsiella pneumoniae* ..... 145

George W. Fischer, Dorothy K. Powers, and Mildred M. Galton. Studies of technics for the isolation of leptospires. I. The suitability of 1 to 2 day old baby chicks as compared to hamsters for the isolation of various leptospiral serotypes ..... 150

Herbert E. Hall and James C. Humphries. The relationship between insusceptibility to phagocytosis and virulence of certain *Klebsiella pneumoniae* strains ..... 157

Royce Z. Lockart and Neal B. Groman. Some factors influencing the interaction of western equine encephalomyelitis and selected host cells ..... 163

James W. Moulder, Jacqueline Ruda, and Rima M. Greenland. Separation of mixtures of two drug-resistant strains of feline pneumonitis virus by limiting dilution passage in chick embryo yolk sac ..... 172

San-Pin Wang and Tsu-Yang Lin. Laboratory studies on some biological properties of the Far East influenza virus ..... 178

Werner A. Janssen, George M. Fukui, and Michael J. Surgalla. A study of the fate of *Pasteurella pestis* following intracardial injection into guinea pigs ..... 183
